

Recently this document was sent to me , i wanted to include this to the courts attention . the plaintiff ,  
Mr Katz has repeatedly referred to his inclusion in my will ——— this was the context of that will . I was under psychiatric care , Psychiatrist , Dr. Shapiro , Psychologist Gary McDaniel Dr. Graves , my family doctor ——— Medications included Paxil , and later Flexor ——— During this period Howard Katz hounded me for his inclusion in this will, virtually dictating the terms , verbatim. I functioned as the President of an incorporated business and for over 20+ years , since 1980 — was listed as such on tax returns , paid a salary as such , paid comensurate taxes , social security obligation etc . I reiterate , the president of an incorporated business . I did mail to Mr. Katz an explanantion of personal expenses , listing . these expenses as the salary paid to the President of the company , very basic expenses , representing modest living . He asked for these, I responded listing truthfully . Regarding his referencing credit card debt , these were for business purposes , business expenses , absolutely within the context of the business . The plaintiff can not deny knowing this . Statements I made here made freely and under penalty of perjury sincerely Joe Mogus
